

Essence: Sweet children, become pure and you will become worthy of doing spiritual service. Soul-conscious children stay on the pilgrimage of remembrance and also enable others to stay on this pilgrimage.

Question: How does the income that you children earn at the confluence age become your true income?

Answer: The income that you earn at this time lasts for 21 births. By earning this income you never become bankrupt. To listen to this knowledge and give it to others and to stay in remembrance and inspire others to do the same is the true income that only the true Father teaches you to earn. Throughout the whole cycle, no one else can earn such an income. No other income goes with you.

Song: We have to walk on that path where we fall and we therefore also have to take care.

Om shanti. You children have been stumbling along a great deal on the path of devotion. On the path of devotion, people go on pilgrimages with a lot of love and good feelings. They listen to the Ramayana, etc. They sit and listen to those stories with so much love that they even cry: Our goddess Sita of our god Rama has been abducted by the devil Ravan. When they hear this, they cry. All of those are tall stories in which there is no benefit. They even call out: O Purifier, come! Come and make us unhappy souls happy. Because they say that souls are immune to the effect of action, they don't understand that it is souls that experience sorrow. They believe that souls are beyond happiness and sorrow. Why do they say this? Because they believe that God is beyond happiness and sorrow, they ask how it is that His children could go into happiness and sorrow. You children now understand all of these things. Even on this path of this knowledge, there is sometimes an eclipse of bad omens and sometimes something else happens. Sometimes, your faces are blooming and at other times they wilt. This is a war with Maya. Maya has to be conquered. When someone becomes unconscious - the life giving herb of "Manmanabhav" is given. There is a lot of glamour on the path of devotion. They decorate the idols of the deities so much and put real jewellery on them. The ornaments are the *property* of the idols and anything that belongs to the idols belongs to the priests and *trustees* of the temple. You children know you were decorated with many diamonds and jewels in the living form and you still wore a lot of jewellery when you then became worshippers. Now, you don't have anything. You wore them in the living form and also in the non-living form. Now, you have *no* jewellery; you are completely ordinary. The Father says: I enter an ordinary body. There is no external, kingly splendour. Even sannyasis have a lot of external splendour. You now understand how we souls were so pure in the golden age. Even our bodies were pure. Even our decorations were very beautiful. Those who are beautiful have a keen interest in decorating themselves. When you were beautiful, you wore beautiful jewellery; you used to wear big necklaces etc. of diamonds. Here, everything is ugly. Even the cows have become so ugly. When Baba went to Shrinath Dware, there were beautiful cows there. They portray the cows with Shri Krishna as very beautiful. Here, because this is the iron age, just look what all the cows are like! Such cows don't exist there. You children are becoming the masters of the world. Even your decorations there are very beautiful. Just think about it: there would definitely be cows there. The cow dung there will be so rich; fertiliser is needed for the land. When fertiliser is used, the harvest is good. Everything there is very good and nourishing. Here, there is no nourishment in anything. Everything has become completely *powerless*. Some daughters go to the subtle region. They would eat such large fruit and also drink the very sweet juice from the fruit. Visions were granted showing how the gardeners there would cut the fruit and give it to them. There cannot be any fruit, etc. in the subtle region; those were just visions. Nevertheless, heaven will exist here. People believe that heaven is up above. Heaven neither exists in the subtle region nor in the incorporeal world; it only exists here. The visions that the daughters had here will then be seen with your physical eyes. The things that everyone has are according to their *position*. Look how beautiful the palaces of kings are! There are many very good palaces built in Jaipur. When people go there, they have to buy *tickets* just to see the palaces; they have palaces especially open to the public. They themselves live in other palaces. That happens even now in the iron age. This is an impure world. No one considers himself to be impure. You now understand that you were impure. You were of no use and you are now to become beautiful. That world will be *first class*. Although the mansions in America etc. are *first class*, they are nothing compared to the palaces there, because the palaces here only give temporary happiness. There are *first-class* palaces there. There are *first-class* cows there. There are still cowherds there. Shri Krishna too is called a cowherd. People who look after cows here call themselves cowherds who belong to the dynasty of Shri Krishna. In fact, that cannot be called the dynasty of Shri Krishna. It can be said that they belong to the kingdom of Shri Krishna. Wealthy people who have cows would also have cowherds to look after the cows. The word "cowherd" belongs to the golden age. It is

a matter of only yesterday. Yesterday, we belonged to the original, eternal deity religion and then we became impure and so we began to call ourselves Hindus. When you ask people nowadays if they belong to the original, eternal deity religion or the Hindu religion, they all write that they belong to the Hindu religion. Who established the Hindu religion? Who established the deity religion? No one knows this. Baba asks the question: Tell Me: who established the original, eternal deity religion? Shiv Baba is establishing it through Brahma. The original, eternal deity religion was established through the shrimat of God, Shiv Baba. Then, there was the kingdom of Ravan and people began to indulge in vice. They start to call themselves Hindus when the path of devotion begins. No one calls himself a deity now. Ravan made you *vicious* and the Father has come to make you *viceless*. You are becoming deities by following God's directions. Only the Father comes and makes you Brahmins into deities. It sits in the intellects of you children, numberwise, how you come down the ladder. You understand that all other human beings are following devilish dictates, whereas you are following God's directions. You have been coming down the ladder by following Ravan's dictates. After 84 births, you will then take the *number* one birth. Your Godly intellects understand the beginning, the middle and the end of this whole world. This life of yours is invaluable. It is very great. It is now that the Father comes and purifies you. We are now becoming worthy of doing spiritual service. Those people are physical *social workers* who remain body conscious. You are soul conscious. You take souls on this spiritual pilgrimage. The Father explains: You were satopradhan and have now become tamopradhan. Those who are satopradhan are called pure whereas those who are tamopradhan are called impure. Alloy is mixed in souls. It is souls that have to be made satopradhan. The more you stay in remembrance, the purer you will become. Otherwise, you will become less pure and the burden of sins will still remain on your heads. All souls are at first pure and then each one's *part* is individual; not everyone can have the same *part*. The highest *part* is Baba's and then there are the *parts* of Brahma and Saraswati. Those who carry out establishment also sustain it. Theirs are great *parts*. First is Shiv Baba and then there are Brahma and Saraswati who take rebirth. Shankar only adopts a subtle form. It isn't that Shankar takes a body on *loan*. Shri Krishna has his own body. It is only Shiv Baba who takes a body on *loan* here. He enters an impure body in this impure world and serves everyone to take them into liberation and liberation-in-life. You first have to go into liberation. Only the one Father is the *knowledge-full* Father, the Purifier. Only He is called Shiv Baba. It doesn't seem right to call Shankar 'Baba'. The term 'Shiv Baba' is very sweet. Some offer uck flowers to Shiva and others offer something else. Some still offer milk. The Father continues to explain to you children in many different ways. You children are told that everything depends on yoga. It is only by having yoga that your sins will be absolved. Those who have yoga are also able to imbibe this knowledge well; they will continue to study on their own because they also have to relate this knowledge. This is something new. Only those who heard this knowledge *directly* from God are the ones who hear it now. This knowledge will then no longer remain. You are now listening to whatever the Father says at this time. You imbibe it now and you then have to play your *part* of the reward. It is only now that you hear this knowledge and also relate it to others. This *part* will not be there in the golden age. There, it is the *part* of the reward. People study to become *barristers* and then they earn money working as *barristers*. This is such a huge income. People of the world don't know about it at all. You know that the true Father is enabling you to earn a true income through which you will never become bankrupt. You are now earning a true income. It will remain with you for 21 births. That other income doesn't go with you. This one will go with you and you should therefore occupy yourself in earning this income. These things are not in the intellect of anyone but you children. Among you there are also some who forget it again and again. You should not forget the Father or the inheritance. There is only one thing to do: Simply remember the Father from whom you receive your inheritance of 21 births. Your bodies will also remain free from disease for 21 births. Untimely death will not take place until you reach old age. You children should have so much happiness. The remembrance of the Father is the main thing. It is in this that Maya creates obstacles; she brings storms. Many types of storm come. You say that you will remember the Father, but you are unable to do that. It is in having remembrance that many *fail*. Many lack in the subject of yoga. You must become as strong as possible in yoga. The knowledge of the Seed and the tree is not a big thing. The Father says: Remember Me! By remembering Me and knowing Me, you will come to know everything. Remembrance contains everything. Remember *sweet* Baba! Shiv Baba, the Highest on High, is God; He is the most elevated of all. He gives you the highest-on-high inheritance for 21 births. He makes you immortal and constantly happy. You become the masters of the land of immortality. Therefore, you should remember such a Father very well. When you don't remember the Father, you remember everything else. Achcha.

To you sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to you spiritual children.

Essence for dharna:

1. This Godly life is very, very valuable. Make both yourself, the soul, and your body pure in this life. Stay on the spiritual pilgrimage and teach others this pilgrimage.
2. Occupy yourself in earning a true income as much as possible. In order to become free from disease, become strong in remembrance.

Blessing: May you use your body for doing Godly service while considering it to be a valuable property entrusted to you, and so become a conqueror of attachment
When you are given something valuable to look after, you do not consider it to be yours and you do not have attachment to it. That body, too, is entrusted to you for doing Godly service. The spiritual Father has entrusted it to you and so you would definitely remember the spiritual Father. By considering it to be entrusted to you, there will be spirituality and you won't have any attachment of it being yours. This is an easy way to become a constant yogi and a conqueror of attachment. So, now, reveal your stage of spirituality.

Slogan: In order to go into the stage of retirement, *underline* purity in your vision and attitude.

Avyakt Signal: Imbibe the virtues of sweetness and humility to become great.

Every word of yours is great. Any thought in your mind about anyone else should be sweet. Let your nature be that of uplifting everyone, a nature of sweetness and humility. Never say: My nature is like that! Where did "mine" come from? My nature of speaking is very loud. My nature is forceful. To be influenced by your nature is also Maya. Now become a conqueror of Maya. Transform any the nature of being arrogant, disheartened, jealous or forceful.
