

Essence: Sweet children, even though you have come late, if you make fast efforts you will be able to go ahead. Stop worrying about others and remain busy in making your own efforts.

Question: What one task of the Father cannot be carried out by any human being?

Answer: To change human beings into deities and make them into the masters of the land of peace and the land of happiness is the task of the one Father alone. No human being can carry out this task. Only at the confluence age do you have the faith that you listen to the versions of God. God Himself is now teaching you Raja Yoga as He did in the previous cycle.

Om shanti. The unlimited spiritual Father explains to the unlimited spiritual children. Each version or jewel of this knowledge is worth hundreds of thousands of rupees. The Father has explained that God is also called Rup and Basant. He has a form and His name is Shiv Baba. He is the Ocean of Knowledge and you receive salvation through this knowledge. Knowledge is wealth and also a study. The *spiritual Father* gives you this knowledge. A soul is called a *spiritual* being (spirit). On the path of devotion, souls stumble around so much in order to meet the Father; they search for Him. They believe that only Shiva is God, yet they continue to stumble around. The Father comes and explains: Spiritual children, you are imperishable residents of the supreme abode from where you come down here to play your *parts*. You are residents of a faraway land. This is a *drama* and it is called a play of victory and defeat, happiness and sorrow. The Father explains: I and you are all residents of the land of peace. That is also called the land of Nirvana. First of all, have the faith that you are residents of that place. The original religion of us souls is peace. A whole imperishable *part* is recorded in each soul, a point. The Father teaches you. You worry about the people of the world. You have the faith that the versions of God are only spoken at the confluence age and at no other time. No one else can change human beings into deities. They cannot make anyone into a master of the land of peace or the land of happiness. The Father made you into those in the previous cycle. Someone who has now become a *president* will also become that 5000 years from now. The *scene* and *scenery* of the whole world will *repeat* after 5000 years. The old mothers are unable to imbibe all of this and so they are just told to remember three things: We souls are residents of the land of peace. We then go to the land of happiness, and then, when the kingdom of Ravan begins after half a cycle, we begin to indulge in vice. That is called the land of sorrow. When the land of sorrow is ending, the Father comes and says: Remember Me. I have to come to take you back to the land of peace and the land of happiness. Those who came and belonged to the Father will now come and claim their inheritance. The sun-dynasty and moon-dynasty kingdoms are being established. Millions of people will come and listen to and understand something or other from the Father. A lot of growth will take place. You will have to go everywhere and explain to everyone. Many will also hear about this through the newspapers. In Pakistan too, they will read about this in the papers. While sitting there, they will listen to this knowledge. The Gita has been publicised throughout the whole world. The Father says: Constantly remember Me alone and remember your inheritance. When they read this in the newspapers, many will then become Brahmins. Those who want to claim their inheritance will definitely come and claim it. There is still a little *time* now left and growth will continue to take place. Those who come late will have to make fast effort. Those who became residents of heaven in the previous cycle will also definitely become that now. There cannot be the slightest difference in this. Those who are to go to the land of peace will go to the land of peace. They will then come to play their *parts* at their own time. The Father says: Children, now remember Me and you will reach your home. Sannyasis beat their heads for liberation, and this is why they tell everyone that liberation alone is fine. They consider happiness to be like the droppings of a crow. It has been written in the scriptures that there were matters of sorrow even in the golden age. They don't understand anything. They say that God has to come. "Purifier, Supreme Soul, come and show us the path!" On the other hand, they say that the Ganges is the Purifier. They believe that to bathe in the Ganges, to have sacrificial fires, to do tapasya and to go on pilgrimages are all paths to God. Since you call out to God, why do you continue to stumble around? All of those things are fixed on the path of devotion. People continue to say whatever enters their minds. They make so much effort to find God. Would devotees go to meet God or would God have to come here? Impure souls cannot go there; the Father comes here to take you there. The Guide of all souls is just the One. You too will become pure and follow Him. The Bridegroom is decorating you with the jewels of this knowledge in order to make you into emperors and empresses. They show that Shri Krishna abducted so-and-so and made her into a queen. Those things don't really apply to him. You children know that you will become empresses of heaven. You were residents of heaven. The Father has now come to make you into those once again. It is a matter of 84 births. No one could remember 8.4 million births. They have shown the golden age to be hundreds of thousands of years and fewer years for the silver age. This calculation doesn't

fit. The Father tells you everything so easily: Simply remember two things: Alpha and beta. You will then become pure and be able to fly and claim a high status. You should have the concern of definitely remembering the Father no matter what happens. Storms of Maya will also come, but you mustn't be defeated. Even if someone becomes angry, you mustn't say anything. Sannyasis say: Put a lucky charm in your mouth and then the other person, after speaking a great deal, will become quiet. The Father also says: If someone speaks to you angrily, just continue to observe in silence. You definitely have to remember Shiv Baba under all circumstances. It is only by having remembrance of Baba that you will remember your inheritance. Your supersensuous joy is remembered: you become princesses of heaven for 21 births. There won't be any mention of sorrow there. You experience happiness for 50 or 60 births; the period of happiness is greater. What would be the benefit if happiness and sorrow were *equal*? You also have a lot of wealth. Until some time ago, grain here was very cheap. The kings had great kingdoms. Baba used to sell about 37 kgs. of grain for ten annas (16 annas equal one rupee). Therefore, before that, everything must have been so cheap. There would have been few people at that time. They would not have been concerned about food. You should now remember that you will first go home, then go to the new world and play your new *parts*. There, your bodies will be created from satopradhan elements. Now, the five elements have become completely tamopradhan and impure. Souls and bodies are both impure. There, bodies are not diseased. All of these matters have to be understood. Everything is explained to you children very clearly here, but when you go back home, you forget them. Here, the clouds are so happy when they are filled, but then, as soon as they go out, they forget. Previously, there used to be a lot of dancing too. All of that was then stopped. People used to think that there was magic here. When they do intense devotion on the path of devotion, it is with great difficulty that they have visions. Here, there is no question of devotion. They would go into trance while just sitting somewhere and this was why people used to think that there was magic here. Nowadays in the world, so many have become gods. They give themselves names such as Sita Ram, Radhe Krishna etc. There is so much difference between the masters of heaven and the residents of hell. At this time, all are residents of hell. This is shown very clearly in the picture of the ladder. Children have created the picture of the ladder with their own churning. Baba saw this and was very pleased. Everything is included in the picture of the ladder: how the vicious kings have continued to come down from the copper age while continuing to perform devotion. They now have no crowns. It is very easy to explain using the pictures. You can explain how there is the stage of descent for 84 births and how there is then the stage of ascent. They sing: There is benefit for everyone due to the stage of ascent. The Father comes and gives everyone happiness. Everyone calls out: O Baba, remove our sorrow and grant us happiness! However, no one knows how He removes their sorrow and grants them happiness. Nowadays, people learn the Gita by heart and recite that. They explain the meaning of it in a *nutshell*. They recite the slokhas (verses) by heart in Sanskrit and so people feel that the mahatma is very good. Hundreds of thousands of people go and bow down to him. Those worldly studies take nearly 15 or 20 years. If someone is very clever, he would quickly learn everything by heart and relate it and be able to accumulate a lot of money. All of those things are ways to earn an income. When someone becomes bankrupt he goes and adopts renunciation, and so all his worries are removed as he simply remembers one mantra or another and tours around everywhere. He would continue to travel around by *train*. Here, the Father says: Consider yourselves to be souls and remember the Father. The Father and all souls reside in the incorporeal world. From there, they come into the corporeal world to play their *parts*. This play is now coming to an end. Because you are tamopradhan, you cannot return home. Baba has now come to make you satopradhan. Everyone will go back home and there will then just be the kingdom of deities in the golden age. It doesn't enter anyone's intellect when it was the land of peace or the land of happiness or the land of sorrow because they are in total darkness. They believe that the end of the iron age will come after many, many thousands of years. They don't have a proper calculation of it. The number of people continues to grow and there isn't enough food. If there were still 40,000 more years to go, you couldn't tell what would happen. Whatever they say is completely false; there isn't a grain of truth in any of it. The Father now teaches you how to conquer Ravan. Only you can conquer Ravan. Baba liberates the whole world from Ravan. Yours is the Shakti Army and you are making Bharat into heaven. He tells you very good things. You should therefore remember the Father and the inheritance and remain very happy. There is a lot of happiness experienced on the path of this knowledge. Baba has now come. We are now about to leave this old world. By remembering Baba, you will become satopradhan. Otherwise, there will have to be punishment and then, perhaps, you will receive a piece of chapati. However, what would be the benefit of that? Continue to make as much effort as possible for yourself. Follow shrimat. Take advice from Baba at every step. Some say: Baba, I have to lie in my business.

The Father says: There is falsehood in business. Simply continue to remember Baba. It shouldn't be that you indulge in vice and you then say that you were remembering Baba. No; if you indulge in vice, you die. You have promised the Father, have you not? A rakhi is tied for purity. A rakhi is never tied for becoming free from anger. The bond of rakhi means that you mustn't indulge in vice. People call out: O Purifier, come! You children should have a lot of happiness inside you: "Baba is teaching us. Baba will then take us back with Him. From there, we will go to heaven." As much as possible, wake up early in the morning and remember Baba. To remember Baba means to earn an income. What use would blessings be in that? You mustn't say: Baba, give me blessings and I will then remember You. If Baba were to give everyone blessings, everyone would go to heaven. Here, you have to make effort. Remember Baba as much as possible. Baba means the inheritance. You will receive a kingdom according to how much you remember Him. There is a lot of benefit in having remembrance. It is an easy bargain. No one else could make such an easy bargain with you. Hardly anyone makes this bargain. Achcha.

To you sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to you spiritual children.

Essence for dharna:

1. When someone becomes angry, you should keep very, very quiet. Don't become angry with anyone who is angry with you. Don't be defeated by any storms of Maya.
2. Remember the Father early in the morning. Accumulate your income. Make your rakhi of purity strong.

Blessing: May you make the atmosphere avyakt with your avyakt and peaceful form and become an image that grants visions.

Just as you make *programmes* for doing service, in the same way, also make a programme for staying on the pilgrimage of remembrance from morning till night. Every now and then *stop* the *traffic* of your thoughts for two to three *minutes*. When someone is seen having a lot of gross consciousness, then, without saying anything to that one, adopt such an avyakt and peaceful form that that one understands with a signal. By your doing this, the atmosphere will remain avyakt. Something unique will be visible and you will become an image that grants visions.

Slogan: Complete truth is the basis of purity.

Avyakt Signal: Embrace the spirit of uplifting others and uplift those who have defamed you.

If any co-operative brother or sister or any soul of the family, through their misunderstanding or childish stubbornness, considers temporary things to be permanent attainment and have any desire for temporary name, fame, respect and attainment, then to give regard to that one while being humble yourself is to uplift others. To give in this way is to receive for all time.
