Essence: Sweet children, you are now at the confluence age. You mustn't have any thoughts about the iron-aged old world.

Question: What method has the Father shown you children in order for you to reform your actions and perform elevated actions?

Answer: In order to reform your actions, always remain honest with the true Father. If you ever perform a wrong action, even by mistake, then write to Baba about it immediately. If you tell Baba with honesty, the effect of it will be reduced. Otherwise, it will continue to increase. As soon as Baba receives news, Baba will give you shrimat to reform it.

Om shanti. Shiv Baba asks you children through Brahma: Children, what have you been doing, while sitting here, since this morning? You are *students*. So, while sitting here, you would definitely have been thinking that Shiv Baba has come to teach you. Through this study you will become part of the sun dynasty because you are studying Raja Yoga. Are you sitting with the thought that you are becoming the masters of the land of Vishnu or do you remember your responsibilities, children and business, etc.? Let it remain in your intellects that this is the study place of the Gita, that God is teaching you and you will become like Lakshmi and Narayan or members of their clan. This is Raja Yoga. Let it remain in the intellects of you children that you listen *directly* to Baba and are becoming members of the sun-dynasty clan. The picture of Lakshmi and Narayan is in front of you, it will then be our kingdom. Worldly people don't know what heaven is. You children say that you are learning how to rule the kingdom of heaven, how to have self-sovereignty, from Baba. We are the ones who are going to become the masters of heaven. Churn this within yourselves. It remains in the intellects of *students* at *school* that they are studying to become *barristers* or *engineers*. Do you remember what you are studying or do you forget that? You are *students* of God, the Highest on High. The Father is teaching you in order to make you into the highest-on-high deities and you are His children. Do you souls remember your future status through your bodies or do you remember your physical relatives and possessions and businesses, etc.? When you come here, you have to understand that the unlimited Father comes here to teach you to make you into the masters of the unlimited. Then, whether you become kings, queens or subjects is up to you. At least you become the masters. There will only be the sun dynasty throughout the new world. You understand that you will rule your kingdom. Baba knows that some children are unable to remember Baba that much when they stay outside and look after their household, fields, etc. When you come here, you have to leave behind all your thoughts about everything. You are no longer in the iron-aged world. You are now at the confluence age. You have renounced the iron age. Outside is the iron age. Madhuban, which is special, exists at the confluence age. This is why Madhuban is remembered. Here, you just have to churn the murli. *Repeat* whatever you hear and churn the ocean of this knowledge. Whenever you have time, go and sit in front of the pictures. Continue to look at them and study them. The Brahmin teachers who bring others have a lot of responsibility. They have to have a lot of concern, just as *teachers* in a *school* have the concern that they would lose their honour if only a few *students passed*. When many students in a *school pass,* the *teacher* is considered to be good. Brahmin teachers have to pay attention to the *students*. You have come here at the confluence age where Baba speaks to you *directly*. The impact of this place is very good. If you remember your home and business, etc. here, Baba understands that you will become ordinary subjects. You came here to become kings, but… Otherwise, you children would have a lot of happiness inside. The pictures also help you a great deal. People keep pictures of the eight special deities and their gurus at home in order to remember them. However, they don't receive anything by remembering them. Whatever people have done on the path of devotion, they have continued to come down. You children have to make effort to become elevated. Keep a picture of Shiv Baba in your home and you will remember Him repeatedly. Previously, you used to remember Hanuman, Krishna and Rama. Now, Shiv Baba says to you personally: Remember Me! The picture of the Trimurti is very good. Always have this picture in your *pocket*. Continue to look at it over and over again and you will be able to remember Baba. Baba was a devotee and used to keep a picture of Lakshmi and Narayan in his *pocket*. He used to keep one with him underneath his seat (gaddi), but he didn't receive anything from it. There is now a lot of attainment from Baba. You have to remember Him alone. However, it is in this that Maya opposes you. You listen to and speak a lot of this knowledge, and become clever in it. You do not say that you forget the cycle of 84 births. It isn't that those who are living here remember Baba a lot more. No, some who live here remember all the things that are worth nothing. It is as though they don't even know the Father to whom they have come in order to become beautiful. There is a great shadow of Maya. The main thing is remembrance. Baba knows that many very good children don't stay in remembrance. It is only by staying in yoga that your body consciousness will be reduced and

you will become very sweet. Because of being body conscious, you can't become sweet and you continue to get upset. Baba is not saying this about everyone. There are some obedient, worthy children. Those who stay in yoga are said to be worthy children. They never say wrong things. They forget their friends and relatives. We came bodiless and have to return home bodiless. Each of you children has now received a third eye of knowledge with which you know your home and also your kingdom. You also know that Shiv Baba is not a black, oval-shaped image, as is shown, but He is a point. We know this. We are now to go back home where we will remain bodiless. We now have to become bodiless. Consider yourselves to be souls and remember the Purifier Father. It is explained that you souls are imperishable and that you have *parts* of 84 births recorded in you which have no end. You go to the land of liberation for a short time and then come down to act your *parts*. You play *all-round parts*. Constantly remember this. We now have to return home. By remembering Baba, we will become satopradhan from tamopradhan. Here, you mustn't remember your business, etc. Here, you are totally in the confluence age. You are now sitting in a *boat*. Some get off on the way and then get trapped and die. There is a story about this in the scriptures. You know that you are now going across to the other side and that Shiv Baba is the Boatman. Shri Krishna cannot be called the Boatman or the Master of the Garden. God Shiva speaks. Shiv Baba is the Purifier. Your intellects mustn't go to Krishna. People's intellects constantly wander around. Baba comes and frees you from wandering around. He simply says: Consider yourselves to be souls and remember Baba and you will become the masters of heaven. You mustn't forget these things. You go back from here very *refreshed*. You also relate your experience: Baba, we then become what we were before coming here. As soon as we see the faces of our friends and relatives, we are tempted. You children are My lovers. While doing your work, remember the Beloved and you will claim a high status. If you don't make effort now, you won't receive even a *single* crown. When children come here, they shouldn't *waste* their *time*. There isn't anything else here. There is just the Dilwala Temple which is your memorial. You can go and see it. Heaven is shown above, on the ceiling. Your picture of the tree is also very *clear*. You are sitting beneath it doing Raja Yoga. Above you is the kingdom. It is exactly like the Dilwala Temple. You know that Shiv Baba is once again giving you this knowledge and making you into the masters of heaven. This iron age is to be destroyed. Who is Adi Dev and Adi Nath? You know everyone's *occupation*. The things you speak of at this time then continue on the path of devotion. All the festivals and fasts that you observe, refer to this time. The true fast is that of Manmanabhav. However, to remain without food or water is not really a fast. At this time, there is a lot of *pomp* of Maya in the world. Formerly, electricity and *gas* didn't exist here; it has all been invented recently. It was invented about 100 years ago. People are completely trapped in those things. They say that this is heaven for them. There is so much force of Maya that they don't remember the Father at all. They say: Come and see how we are sitting in heaven now. Compared to heaven, all of that is nothing. There is so much difference between heaven and hell. Not a single thing of heaven can exist here. There, everything will be satopradhan. The cows will also be *first-class*. You too become *first-class* and so your *furniture*, food and drink, etc. will also be *first-class*. You come back from the subtle region after seeing the fruit there. The name given is subiras (mango juice). People of the world don't know where heaven is. There, everything is satopradhan. There is no dust, etc. there. There is nothing of sorrow there. However, some children don't yet have the intoxication that Baba is teaching them this study to make them into the masters of heaven. The pictures are so *clear!* It takes time to create pictures. Baba continues to have everything made for *service*. However, some are so trapped in their businesses, etc., that they don't even remember Baba. There is a *magazine* of the exhibition pictures. You should read it too. Those who are regular students of the Gita will study the Gita no matter where they go. You have now found the true Gita with pictures. You should now make very good effort, otherwise you won't be able to claim a high status. You would then cry out in distress when you are shown visions. When their examinations are over, they go and sit in the next *class*, numberwise. Here, too, when all the visions have been given, you will go and become threaded, numberwise, in the rosary of Rudra and then the rosary of victory. When students fail at *school*, they feel so much sorrow. Your deal is for every cycle. Some children don't read the *magazines* fully. You children have to read the *magazines* and do *service*. Some write: Baba, move this one somewhere else and send a good teacher here. They develop love for particular teachers. When their teacher is changed, they fall and stop going to the *centre*. If you do something wrong, instantly write to Baba truthfully about it so that the effect of the sin can be reduced. Otherwise, it will continue to increase. Baba tells you this in order to reform you, but some of you don't want to be reformed, so you don't stop performing sinful actions. If it is not in their fortune, they don't give Baba their news honestly. When Baba receives a *report* about someone, He tries to reform them. Achcha.

To you sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to you spiritual children.

Essence for dharna:

1. Practise becoming bodiless. Don't say any wrong things. Become very sweet. Don't become upset about anything.
2. Remember the murli and churn the ocean of knowledge about whatever you hear. Hold a fast of Manmanabhav.

Blessing: May you remain constantly distant from body consciousness and any bad odour of bodies and thereby become a resident of Indraprasth (Court of Indra).

It is said that no human beings, only angels, can reside in Indraprasth. A human being means someone who doesn't consider himself to be a soul, but a body. So, constantly continue to fly away from body consciousness, the old world of bodies and old relationships. Let there not be the slightest bad odour of being a human being. Be soul conscious and let your wings of this knowledge and yoga be strong and you will then be called a resident of Indraprasth.

Slogan: Only those who use their bodies, minds and wealth in a worthwhile way and increase all their treasures are sensible.

Avyakt signal: Experience the complete and perfect stage, the same as Father Brahma.

Perfection would be numberwise. There are 108 beads of the rosary, the first bead and the 108th bead would both be said to be perfect, that is, victorious jewels. A victorious jewel means he would have attained perfection according to his or her number. For that one, it would be the *first stage* in the whole drama.
