

**At amrit vela, especially become an experienced embodiment of all powers and spread the sakaash of yoga into the atmosphere. Keep your mind constantly busy.
The call of the time is: May you be an intense effort-maker.**

Today, BapDada is seeing the sparkling stars of fortune on the foreheads of all of you children everywhere. One is the fortune of your birth, the second of your relationships and the third of the attainments. Baba is pleased to see all three fortunes. You know the fortune of your birth - that it is the Bestower of Fortune Himself, who has given all of you this divine birth, this Brahmin birth. So, just think how great your fortune is! Along with that, there are the relationships. You know their specialities: that you have all three relationships of the Father, the Teacher and the Satguru in the one Father. All three relationships are in the One. You also know the attainments. Where the Father is, there are the attainments - all and unlimited. All three relationships are in the One. Generally, these three relationships are essential in life. However, for the people of the world, all relationships are separate, whereas you have all three relationships in the One. Because of having all three relationships in the One, you easily experience remembrance. All of you are experienced in the three relationships, are you not? What do you receive from the Father? An inheritance. You receive such an elevated inheritance and this inheritance lasts for so long, because you receive it from God the Father. The second relationship is that of the Teacher. Teachings are said to be your *source of income*. So, the attainment all of you have received from the Teacher is so huge. You know that, do you not? You cannot receive such a huge attainment from anyone except the Supreme Soul, the Father. Through the teachings you receive a status and you have an elevated attainment. In the world, an elevated status is said to be that of a royal status. You too have received a royal status from the Teacher. Even now, you are the kings of self-sovereignty. Why? Because of being a Raj Yogi, you souls become the masters of yourselves. Each of you rules yourself. You souls are not influenced by your physical senses. Souls become the masters and the kings of their physical senses. So, you have self-sovereignty now and you also attain your fortune of the kingdom in the future. So, you have a *double* kingdom: now and the status you attain in the future too. The third relationship is that of the Satguru. You have attained all three relationships, have you not? The Father, the Teacher and the third is the Satguru. You receive the shrimat of the guru from the Satguru. How elevated the directions are that you receive! Check yourself: Am I constantly following shrimat or is my intellect sometimes diverted towards the dictates of myself or the dictates of others? Did you *check* yourself? If you believe that you constantly follow shrimat, the elevated directions, that you never follow the dictates of your own self or of others, even in your dreams, raise your hands! Those who constantly follow shrimat and never follow the dictates of themselves or others, raise your hands!

Look, the mothers raised their hands. You are raising them slowly. Sometimes, your intellects go in that direction, that is, the dictates of others or your own dictates deceive you. So, what is the most important shrimat? Consider yourself to be a soul and remember Me, your Father! Is this easy or difficult? Is it sometimes difficult? However, the Father wants each child to continue to fly constantly forward ahead of all with these three relationships. So, BapDada is asking you: Those of you who didn't raise your hands - can you renounce following the dictates of your own mind and the dictates of others from today? Can you do this? Raise your hands! Achcha. BapDada has already given you the signal of the time. Now, the time of the confluence age is extremely *valuable*, and BapDada has also given you the signal that, according to the present time, everything is to happen suddenly. Therefore, you have to be constantly *ever-ready*, do you not? All of you are going to go home together, are you not? Or, will you follow behind? You want to return home with BapDada, do you not? You are *ready*, are you not? Are you *ready* to return home together? *Ever-ready!* Not just *ready*, but *ever-ready!* BapDada is giving you the signal of the time. In this one birth, you have to create your reward for 21 births. So, just think how much *attention* you have to pay! The Father has love for every child. The Father wants every child to go back with Him and claim a right to the kingdom at the same time.

So, you can return home together, but only if you become complete and perfect, the same as the Father, will you then be able to return home with the Father. At this time, in this small birth, the attainment of 21 births is guaranteed. So, just think how great each minute of this small birth of the confluence age is! Just calculate this: you have to claim your fortune of the kingdom for 21 births in this birth, and so how *valuable* just one minute of the confluence age is! So, knowing this value, what will you have to do from now?

BapDada told you earlier too that you have to pay special *attention* to two things. What are these two things? You remember these, do you not? One is your time and the other is your thoughts. Your thoughts must not be wasted, your time must not be wasted. Each second must be used in a worthwhile way. So, speak! You will have to pay that much *attention*, will you not? BapDada has love for all of you children. BapDada doesn't want any child to remain deprived of His company. You are together, you will return home together, you will claim a right to the kingdom together and constantly experience happiness and peace in your lives. So speak! You will return home together, will you not? You will, will you not? You will not be left behind, will you? Look, three types of fortune are sparkling on each one's forehead. All these three types of fortune are visible on your forehead, are they not? The confluence age is your fortunate age. Any of you can create as much fortune as you want. However, you have to pay *attention* over a long period of time. So, now, all of you children have to put intensity into your own efforts. You are effort-makers. BapDada is seeing that you do make effort, but everyone now has to make intense effort. BapDada now wishes to see every child as a child and a master. A master of what? A master of all the treasures. Sometimes, some children say to BapDada: Baba, You have given all the powers, and we do accept that we are *master* almighty authorities. However, many children then complain: Sometimes, the power that we need does not come to us at that time. However, what is the reason for this? The Father has given all powers to each one. Has He given them or is it that He has given less to some and more to others? You know the reason for this too, but you forget it at that time. Each child has received the treasure of all powers as an inheritance. The Father has given everyone the inheritance of all powers. It isn't that He has given less to some and more to others. He has given all the powers, but why do they not come to you at that time? Just think: If someone is not seated on his seat of self-respect, would anyone accept his order? So, when that power does not come to you, the reason for that is that you do not set yourself on the seat of a *master* almighty authority. Therefore, when you are not on your seat, no one accepts your *order*. So, always remain seated on your seat. Sometimes, you have waste thoughts and sometimes, you have *tension*, and so you let go of your seat of self-respect at that time. BapDada has given each of you so many points for self-respect. The seat for self-respect is very large! Just count how many points for self-respect the Father has given. When you are not seated on your seat of self-respect, do you know what then happens? You know that, do you not? There is body consciousness. There is either self-respect or body consciousness. When you issue an *order* while seated on the seat of body consciousness, your powers will not listen to you. Otherwise, it is not possible that the powers do not listen to those who are *master* almighty authorities. Constantly practise being *set* on your *seat*. Check whether you are doing karma yoga, service or churning; that you are *set* on your *seat* and that all your powers are present.

Today, BapDada toured around at amrit vela and, while touring around everywhere, abroad and here - it doesn't take BapDada long to go around everywhere - what did He see? Should Baba tell you? The *majority* of children were sitting for amrit vela. They had got up and were sitting in their own places. They were making effort to be an image of experience for all the time that they were sitting there; they wanted that but what did Baba see? Some of you were images of experience, because the greatest power is that of experience: an embodiment of experience, an experienced embodiment of all powers, being *master knowledge-full* and a *master* embodiment of all powers. However, there was something lacking in your becoming an image of experience. You do make effort. BapDada still congratulated you, because the *majority* of you come and make effort. The *majority* of you do sit, but BapDada wants you to sit as an image of an embodiment of the experience of light and might. This is because the sakaash of your yoga at amrit vela spreads everywhere into the atmosphere. Increase this experience even more. You saw Father Brahma. His stage was that of such a powerful, angelic form. Pay attention at amrit vela in your own way tirelessly. BapDada saw that some children do sit there in the form of *light and might*. It isn't that they don't. They do sit in this way, but you will have to pay even more *attention* to the effort of this time (amrit vela). BapDada had already signalled you earlier that you have to keep your mind constantly *busy*. Whether you do service with your mind, with words or with churning power, keep your mind *busy*. Churn knowledge. Churning power makes your mind concentrated. Some children do churn well, but you now also have to increase your churning power throughout the day, because BapDada has love for even the last child. BapDada wants even the last child to return home with Him; he should not be left behind. He should not be left behind. So what will you do? *Attention!*

Seeing the gathering today, BapDada knows that there is definitely going to be expansion. You have celebrated the 75th *Jubilee*. BapDada is congratulating you children for that. BapDada also saw the love for service that you children have. Those from each place have enthusiasm, and the fruit and power of service is also visible. BapDada especially saw that where the children served, a greater number of souls who are instruments in the Government have emerged there. According to the present time, when sorrow and peacelessness are increasing, Baba knows that the topic you have chosen as a result of that is essential, because the more peace they want, the more peacelessness will accordingly increase extent. Some form of peacelessness or other definitely comes and, because of this, *tension* is increasing everywhere. The *Government* also wants Bharat to become *tension-free*. So, BapDada is congratulating all of those children who served. Baba is also giving congratulations in *advance* to those who are going to do service.

BapDada now wants each and every child to follow the Father and definitely become complete, the same as the Father. BapDada saw that all of you children are making effort. You have love for making effort, and you even make many *promises* to yourselves: “I will not do this any more! I will not do this any more!” However, what is the reason for this? The reason is the lack of determination in your efforts. Carelessness comes in between. “It will happen, I will become...” This carelessness makes your efforts slack. So, what will you do now? Now, pay special *attention* to this. Make your own *programme* for yourself in which you keep your mind *busy* throughout the whole day. You have to make your own *programme*. Make your own *timetable* for yourself to keep your mind *busy*. Whether you churn, serve or draw one another’s *attention*, keep your mind *busy*! Remain *busy* in your mind. You remain *busy* physically anyway, but now remain *busy* with your mind. Become a *number one businessman* by keeping your mind *busy*. Are you able to do this? Will you do this? Will you? Will you? You know that Father Brahma is also waiting for you, and your *advance party* is also waiting for you. When will you bring the time close because you are responsible for bringing the time close? To make yourself complete means to bring the time close.

BapDada has already given you one special month. In this one month, each one has to become an intense effort-maker, not just an effort-maker, but definitely become an intense effort-maker. Do you agree to this? Are you ready for this? Raise your hands! Achcha. Congratulations. Now, each one of you has to have a determined thought. Then, what daily *result* are you going to give BapDada regarding your whole day? That of intense effort. Not of your effort, but of your intense effort. Are you ready for this? Are you ready? Raise both your hands! Very good. In that case, BapDada will suddenly ask for the result in between. He will not give you the *date*. Suddenly, at any time of the month, BapDada will ask for the *result*. “I have to do this.” Make this promise to yourself. BapDada can make you make a promise and He does this all the time, but now have this thought by yourself and demonstrate this by doing it practically. “I definitely do have to do this.” Not that “I will do it some time...” Now, saying that you will do it some time is not good. The time is now moving forward. It is going into its extreme. So, you ancestors who are to transform the time, do you not feel mercy for your unhappy family? Become merciful! Show the path of happiness to those who are unhappy, whether with your thoughts, your words or your connections and relationships. They are your family, are they not? So, you have to remove sorrow from your family. Become merciful! Achcha.

Now, wherever each one of you is sitting, whether you are watching on TV, whether you are sitting at the different places here; others are also watching on TV. BapDada is giving each and every child the *title* of “intense effort-maker”. Now, always remember this *title*. If anyone asks you who you are, just say: “An intense effort-maker”. Is this Ok? Does everyone agree? Agreed? Now, it will not do to continue making effort in a slack way. Time is racing ahead and this is why you definitely do have to become intense effort-makers. It is the call of the time. May you be an intense effort-maker! Lots and lots of love and remembrance from BapDada to all of you children and Baba is also giving you the gift of intense effort.

Blessing: May you be *innocent* of any *knowledge* of Maya and become a “*saint*” of this knowledge and completely pure.

Just as golden-aged souls are *innocent* of any *knowledge* of the vices, similarly if those same sanskars also remain clearly in your awareness, you will then become *innocent* of any *knowledge* of Maya. However, the sanskars of the future will only remain in your awareness when you have your soul-conscious form clearly in your awareness all the time. Just as your body is clearly

visible, in the same way, the form of you, a soul, has to be clearly visible, that is, it has to be experienced. You will then be said to be *innocent* of Maya and a “*saint*” of this knowledge, that is, completely pure.

Slogan: Any impurity within you creates an obstacle to your becoming completely pure.

Avyakt Signal: Now reveal your form of a bestower.

You Godly servers are those who serve, not those who are served by others. If you become those who take service, your duty is not then according to your name. Godly servers do not take service, they do service because they are the children of the Bestower. Just as the Father never takes anything and always gives, in the same way, you also have to become those who give. If you ever become *problematic*, that would also be taking service. Anyone who takes any type of extra service from others will never have the intoxication of being a child of the Bestower and the Bestower of Blessings.
