

**Become full of all treasures and give a vision of spirituality with your face and activity.**

Today, the Bestower of all Treasures is seeing His children who are the masters of His treasures. Each child is full of all treasures, because the Father has given all of you children the same treasures at the same time. So, BapDada has come to meet His children who are the children and the masters. You children called out and, because of your love, the Father arrived here. There are many treasures: the first treasure of all is the wealth of this knowledge and you have become so prosperous with the wealth of this knowledge. You have become great donors and you continue to donate to others. Souls that were tied in different bondages have become free from those bondages through the treasures of this knowledge. From being tied in bondage, souls have become free from bondage. Along with that is the treasure of yoga, that is, of remembrance through which you have attained so many of the powers. In the same way, through the inculcation of virtues, you have experienced all the virtues, that is, you have received the treasures. Along with those, with the power of inculcation, there is the power of everyone's love; you have received the treasure of the power of being loving to everyone and detached from everyone. You have experienced the treasure of everyone's love; as well as this, you have also experienced the treasure of limitless happiness in all Brahmin relationships. However, the special treasure amongst all of these treasures is the treasure of the time of the confluence age. Those souls who are constantly aware of the importance of the treasure of this time become the masters of many attainments because, although the time of the confluence is very short, there is a lot of attainment received at this time. The greatest and most elevated attainment of the confluence age is that you have found the Father Himself in the form of the Father, the Teacher and the Satguru. In this short birth of the confluence age, you receive an achievement for 21 births: you have all attainments of tan (body), man (mind), dhan (wealth) and jan (relationships). You have the *guarantee* for your *full* 21 births, not half or three-quarters, but for the *full* 21 births. The greatest importance is that each *second* of the confluence age is equal to many years. So, speak! You are full of all these treasures, are you not? You are full, are you not? This is why BapDada is constantly reminding you of the time. Some children believe that, if they think of something else for just one or two *minutes*, then that is just two *minutes*. However, according to the importance of this time, that is not two *minutes*. It is not even equal to two months, but it is equal to two years. The time of the confluence has this much importance. You have all attainments of all the powers, all the virtues, God's love, the love of the Brahmin family and the right to the Godly kingdom of the previous cycle. You have all these attainments in this short age. You do not have all these attainments in any other age. You will have the fortune of the kingdom; there will be the kingdom of all of you. There will be happiness, peace, everything, but it is only at this confluence age that you have meetings with God, supersensuous joy, the Brahmin family and this *knowledge* of the beginning, middle and the end. You will continue to receive this every cycle.

BapDada is seeing from the face of each of you children how many treasures you have accumulated. You have received the treasures; how much each of you has increased your account of accumulation is visible in your face and your activity. Each one of you knows for yourself how much you have accumulated. The desire of BapDada's heart is that you receive the treasures, but now is not the time just to speak about them. Let your faces and activity give the practical experience of you souls being special, unique and loved by God because, as you progress further and times change, your service will not happen just with words. Because the times will become delicate, people will not be able to make much time to come, but they will see your spirituality from a distance in your faces and actions that are full of all treasures. So, now, reveal such effort of yours. You saw Father Brahma: although he was part of a gathering, his *personality* was experienced from a distance to be sparkling. In the same way, BapDada calls you *double* foreigners *double* effort-makers. Therefore, today, BapDada is pleased to see the *double*-foreign instruments. You are making good effort for expansion. All of you are receiving very good sustenance from the instrument souls and BapDada likes one thing about all of you very much. It is that all of you souls have a gathering to meet one another especially in Madhuban, because the atmosphere of Madhuban helps a great deal in providing *refreshment*, and there is just the one responsibility of self-transformation, and of serving with the mind. You have a good *chance* to exchange experiences with one another. BapDada is congratulating you for this.

Now, perform some wonders when you go back to your own places. Give the *practical* experience of the uniqueness that the Father loves through which you will continue to experience the *refreshment* of Madhuban there. So, today, it is the meeting of the special *double* effort-makers' *group*; and just look! The people of India have so much love for you that they give you the first *chance*. So, the *result* of the first *chance* is to

claim the first *number*. It feels good. BapDada also told you earlier that the *double* foreigners and the *double* effort-making children had revealed a special *title* of the Father and, in the *majority* of places abroad, they have made the Father's children emerge and created a picture of their fortune. This is why they are making effort with a lot of love everywhere, and through this, the task of the Father, the World Benefactor, is being revealed. This is why BapDada is giving every child congratulations. Wah child! wah! Even now, just as the service of giving Baba's message in every corner of Bharat is continuing, in the same way, you have the enthusiasm to give the message in the countries that still remain, because there is no guarantee of the time. BapDada has told you in advance that anything can happen suddenly and that is why you have to think of giving the message and of your own *progress* now, not some time. In fact, BapDada has said that the words, "some time", do not seem right in the *dictionary* of Brahmins. Have the thought now and do it there and then! Do not say, "I will see about it. I will do it." Do not use the language of leaving something to the future. This is why your Mama also kept this aim. She used to remind everyone: If not now, then never.

So, *double* effort-making children, are you those who will do something right now or at some point in time? Those of you who think that you are those who will demonstrate this by doing something right now, raise your hands! "I definitely have to do it. I have to do it", not, "I will do it at some point", "I have to do it." Remember: Keep your own *chart*. BapDada also told you earlier: After relating your *chart* of the whole day to BapDada at night, go to sleep by first clearing your head and you will then be able to sleep well. This is because, by telling Baba about whatever happens every day, you will remember the next day that you had told Baba about it the day before, and that awareness helps you. You will then not have to go to the land of Dharamraj. You had already given it to Baba and transformed it, and so you will be saved from the land of Dharamraj. Now, next year - no one has seen it - but keep the aim. Let alone a year, but for whatever short period of time, reveal in a *practical* way as soon as possible the hope that the Father has of revelation through your face and your activity. Do you have the courage? Then raise your hands! Do you have the courage? Do you? OK. Congratulations! BapDada is right now seeing faith and the zeal and enthusiasm of courage in every child. However, do not reduce it when you go back on the *planes*. Continue to increase it. Constantly keep the key of determined thought with you that BapDada gave you. "I have to do it, right now". Not some time in the future. That time has now gone. It will happen; it has to happen... Not that it will happen; it has to happen. Always remember your *title* of being a *double* effort-maker that BapDada has given you.

BapDada heard the *result*. Bharat and the countries abroad have not done anything less in terms of the *plan* of service that BapDada gave. The *majority* of places have used this blessing with zeal and enthusiasm and Baba continues to receive the *results* from the different places. Whether it is the children of Bharat or the children abroad, BapDada is giving multimillionfold congratulations for putting everything into a *practical* form.

BapDada has now told you what you especially have to do *practically* this year: let the sparkle be visible on your face. Whoever sees you, you have to be instruments for revelation, you have to reveal the Father, and so what do you have to do? Let your faces always be smiling. Let there be no thoughts or confusion. BapDada had told you to remember two expressions now: Signal Maya to *get out* and to experience yourselves to be in a *guest house*. This world does not belong to you; it is a *guest house*. You definitely have to return home now. Let the scenes of the home be visible in your minds and intellects. Then, you will *automatically* feel that the home is here. You have a song: We now have to return home. Whether you are from Bharat or abroad, now give this experience in a practical way. Have unlimited disinterest. One's heart cannot become attached to a *guest house*. Constantly remember: I have to return. I have to go back. Unlimited disinterest would completely finish any type of thoughts in your mind or obstacles of Maya in gatherings among yourselves. The storms of Maya will become a gift for you. Then, the small test *papers* that come to you will not seem like test *papers*, but they will seem like a *lift* to increase your experience. *Gift and lift*. Do you understand?

Now keep the aim of having unlimited disinterest, keep flying and make others fly with your wings of courage, zeal and enthusiasm. It is now time to fly. Always *check* that your wings are not becoming weak. BapDada is pleased to see the growth of you *double* foreigners. What does He want to see now? That each child becomes complete and perfect, the same as the Father, full of all treasures and perfect in following every *shrimat* that you receive. Do you like that? If you like it, then you can applaud. Achcha. Remember this

applause every day. Clap in your mind every day. Do not clap externally, but in your mind. This is your *homework*. Achcha.

2,300 brothers and sisters have come from 90 countries. (Brothers and sisters from the five continents stood up according to the continent they came from.) 1. America, Canada, Caribbean. 2. Australia, Asia, New Zealand, Fiji. 3. Europe, UK, Middle-East. 4. Africa, South Africa, Mauritius. 5. Russia, CIS, Baltic region.

All the places had the thought of making progress and you also had spiritual chit-chats among yourselves. BapDada continues to receive the news. Now, prepare a *group* of those who remain *ever-ready*. However many countries children have come from, BapDada will give a *prize* to those countries. The *prize* that will be given will be seen at that time. BapDada says to the *group* of *double* effort-making children from each *area*: This is for any *group* that becomes *number one*, however many centres there are in each city of one region. For example, take America; however many cities and countries are *connected* with America, let all of them discuss this among themselves and create a *programme* there that they will all remain free from obstacles, *ever-ready*, conquerors of Maya, loving and co-operative in service. BapDada will give a *prize* to those who are *number one*. OK, not just one, but Baba will give prizes to three. One, two and three - three *numbers*. Generally, it is given to just one, but you are *double* effort-makers and so a *chance* will be given to three. Do you like it? Yes, you can wave your hands. Do you like it? How much *time* do you need? You *teachers* should say how much *time* you need to claim the *prize*. Speak! (By February) *Teachers* of all the countries, raise your hands! Is that all right? You will be ready by then, will you not? Then BapDada will give a *prize*. Very good. You can applaud for this. Achcha.

The *turn* for Bharat will also come. Now, it is your *turn*. BapDada is also pleased: Wah intense effort-making children! wah! Achcha. What are we going to do now? Achcha.

To all of you intense effort-makers everywhere who fly with the wings of courage, zeal and enthusiasm, not those who walk, but those who fly, to the children everywhere who are going to become complete and perfect like the Father and who are seated on BapDada's heart throne, to those who constantly experience the *combined* form with the Father and who take help from that form, to each long-lost and now-found loving child of the Father, BapDada's love, remembrance and namaste.

**Speaking to the Dadis:** All of you have helped the Father, have you not? The yagya has continued and will continue with the help of both the children and the Father. You are also instruments for this, are you not? In the corporeal form, one said one thing and the other one did it. You have been co-operative with one another and are flying. BapDada is pleased to see you flying. (Dadi Janki said that it was a wonder of Dadi Gulzar.) She is with you anyway. It is BapDada's pure desire that all of you who are instruments be visible as one. Not that you are seen to be different, but all are seen as one. One said something and another one gave her idea and you become united. This is why the yagya is still continuing. It is continuing with the unity of all of you. Externally, it may not be visible, but in your thoughts and ideas, remain as one and move forward in that, because everyone's vision is now on all of you. Achcha.

**Blessing:** May you be a constantly powerful soul and purify the atmosphere with your elevated attitude. Those whose elevated attitude remains constantly stable cannot be shaken by any atmosphere or *vibration*. An atmosphere is created with your attitude: if your attitude is elevated, the atmosphere will become pure. Some say: What could I do? The atmosphere was like that and, because of that atmosphere, my attitude was disturbed. At that time, instead of being a powerful soul, you became a weak soul. Therefore, make your attitude powerful by remaining aware of your promise and you will become powerful.

**Slogan:** To become an embodiment of virtues and make everyone an embodiment of virtues is to be a great donor.

**Avyakt Signal: Make your foundation of faith strong and remain constantly fearless and carefree.** Have real love for one another, and you will never assume anything about a loving soul. Loving words, although ordinary, would not be felt as such. Words spoken lightly will feel as though those words have been spoken for some purpose. They are not meaningless or wasteful words. Where there is love, there will definitely be faith. So, in the Brahmin family, have love for and faith in one another and have a completely faithful intellect. Only then will you be able to fulfil the hopes of Father Brahma. \* O M S H A N T I \*
