

Essence: Sweet children, you receive one direction from the one Father. It is called an undivided direction. It is by following this undivided direction that you become deities.

Question: What main thing have human beings forgotten in this game of the maze?

Answer: Having gone into the game of the maze, they have forgotten their way home. They don't know when or how they can return home. The Father has now come to take all of you back with Him. Your effort now is to go beyond sound to the *sweet home*.

Song: O traveller of the night, do not become weary! Your days of happiness are about to come!

Om shanti. According to the *drama plan*, no one else can understand the meaning of this song. There are some songs composed by people outside that can help you. You children understand that you are now becoming deities. Just as those who study worldly studies say that they are becoming doctors or barristers, so it is in your intellects that you are becoming deities for a new world. Only you have these thoughts. That new world, the golden age, is called the land of immortality. At present, there is no golden age or kingdom of deities; that cannot exist here. You know that you have been around the cycle and reached the end of the iron age. The cycle does not enter the intellect of anyone else. They say that the duration of the golden age is hundreds of thousands of years. You children have the faith that the cycle really does turn every 5000 years. Human beings only take 84 births; there is an account. This deity religion is called an undivided religion. There is also the undivided scripture: there is only one of those. Otherwise, there are innumerable religions and innumerable scriptures elsewhere. You are only one. You

receive one direction from the One. This is called the undivided direction. It is you who receive the undivided direction. This study is to become deities. This is why the Father is called the Ocean of Knowledge and *knowledge-full*. You children understand that God is teaching you for the new world. Do not forget this. Would *students* in a *school* forget their *teacher*? No. Those living at home with their families study in order to attain a better *position*. You are also studying while living at home with your families, in order to progress. It should enter your hearts that you are studying with the unlimited Father. Shiv Baba is Baba and Prajapita Brahma is Baba. The name Prajapita Brahma, Adi Dev, is very well known. It is just that he existed in the *past*, just as Gandhiji also existed in the *past*. They called him Bapuji (father), but they don't think he was that; they just say it. Shiv Baba really is that. Brahma Baba is also that and a physical father is really that. However, they call the *mayor* of a city "father" only for the sake of it. All of those are *artificial*, whereas this One is *real*. The Father, the Supreme Soul, comes and makes souls belong to Him through Prajapita Brahma. He must definitely have many children. All are the children of Shiv Baba. Everyone remembers Him. Nevertheless, some don't even accept Him. They are firm atheists who say that this world is created with a thought. The Father now explains to you: Keep it in your intellects that you are studying and that it is Shiv Baba who is teaching you. Remember this day and night. It is this that Maya makes you forget again and again. This is why you have to remember Baba. You forget all three: the Father, the *Teacher* and the Satguru. He is only one but you still forget Him. It is in this that you battle with Ravan. The Father says: O souls! You were satopradhan and have now become tamopradhan. You were pure when you were in the land of peace. No soul can stay above without *purity*. This is why all souls call out to the Purifier Father. When everyone has become impure and tamopradhan, the Father comes and

says: I make you satopradhan. When you were all in the land of peace, you were pure. No impure souls can stay there. Everyone definitely has to experience punishment and become pure. No one can return home without becoming pure. Although they say that so-and-so has merged into the brahm element, or that soand-so has merged into the element of light, all of those are the innumerable ideas of the path of devotion. This is your undivided direction. Only the one Father can change you from humans into deities. Every cycle, the Father comes to teach you. His *act* continues exactly as it did in the previous cycle. This *drama* is eternally predestined. The world cycle continues to turn. There is the golden age, the silver age, the copper age, the iron age and then there is this confluence age. The main religions are *Deitysm, Islamism, Buddhism, and Christianity*. They are those who have a kingdom. There is no kingdom of the Brahmins or of the Kauravas. You children now have to remember the unlimited Father again and again. You can also explain to worldly brahmins. Baba has told you many times: First, there is the Brahmin topknot. You are first the progeny of Brahma. You know that, later, on the path of devotion, you are the ones who become worshippers from being worthy of worship. You are now becoming worthy of worship. Those worldly brahmins are householders and not sannyasis. Sannyasis are hatha yogis; they force themselves to leave their households. Hatha yogis teach many types of yoga. There is a *museum* of hatha yogis in Jaipur, but there are no images of Raja Yoga there. It is only in the Dilwala Temple that there are images of Raja Yoga. There is no *museum* of that. There are so many *museums* of hatha yoga. It is only in Bharat that they have temples of Raja Yoga. This museum is in the living form. You are sitting here in your living forms. People don't know where heaven is. In the Dilwala Temple, you are shown seated on the ground doing tapasya. That is a complete memorial of you. Heaven is portrayed above you. People do believe that

heaven is up above. This cycle continues to turn. After half a cycle, heaven will go down below, and then, at the end of a cycle, heaven will come up above. No one knows how long its duration is. The Father has explained the whole cycle to you. When each cycle comes to an end, you take this knowledge and go up above, and then a cycle starts afresh. You should turn this around in your intellects. When those people study *knowledge*, they have their books, etc. in their intellects. This too is a study. Keep yourself filled with this. Do not forget it. All – old, young and children – have a right to study this study. You simply have to know Alpha. Once you know Alpha, the Father's *property* will enter your intellects. Even animals keep their children in their intellects. When they go into a forest, they still continue to remember their home and their young ones. They automatically find their young ones. The Father now says: Children, constantly remember Me alone and also remember your home from where you came to play your *parts*. Souls love their home. They remember their home so much, but they have forgotten their way back. It is in your intellects that you live very far away. However, no one knows how you can go there or why you are unable to go there. Baba has explained that this is why the game of the maze has been created: whichever way you go, the gate is closed. You know that the gates to heaven will open after this war. Everyone will leave this land of death. All human beings will go and stay there, numberwise, according to their religions and according to their *parts*. All of these things are in your intellects. People beat their heads so much in order to go to the brahm element. You have to go beyond sound. No sound remains when a soul leaves his body. You children know that that is your *sweet home*. There is then the *sweet* kingdom, the undivided kingdom of the deities. The Father comes and teaches you Raja Yoga. He explains to you this full *knowledge* from which the scriptures are later created on the path of devotion. You don't need to study those

scriptures, etc now. Old mothers don't study in those schools. Here, everyone studies. You children become deities in the land of immortality. There, no such words of defamation are spoken. You now know that heaven existed in the past. There is praise of heaven. They build so many temples. Ask them: When did Lakshmi and Narayan exist in the past? They don't know anything at all. You now know that you have to return home. It has been explained to you children that the meaning of "Om" is different from the meaning of "Hum so". They have made the meaning of "Om" and the meaning of "Hum so" the same. You souls are residents of the land of peace. You come down here to play your parts. You become deities, warriors, merchants and shudras. "Om" means "I am a soul." There is so much difference. They have taken the meaning of both to be the same. These matters have to be understood with your intellects. Those who don't understand fully continue to nod off all the time. You never nod off when you are earning an income. That income is for a temporary period. This income is for half a cycle. However, when your intellect wanders off in other directions, you become tired and continue to yawn. You must not sit here with your eyes closed. You know that souls are imperishable and that bodies are perishable. There is the difference of day and night between the way iron-aged residents of hell look at everything and the way you look at everything. I, a soul, am studying with the Father. No one knows that the Supreme Father, the Supreme Soul, the Ocean of Knowledge, comes to teach us. I, a soul, am listening to Him. It is only by considering yourselves to be souls and remembering the Father that your sins will be absolved. Your intellects will go up above. Shiv Baba is speaking this knowledge to us. A very refined intellect is required for this. Baba shows you the way to refine your intellects. By considering yourselves to be souls, you will definitely remember the Father. The reason why you have to consider yourselves to be souls is so that you can remember

the Father and form that relationship which has been broken for this whole cycle. There, there is just the reward of happiness and only happiness; there is no question of sorrow there. That is called *heaven*. Only *Heavenly God, the Father*, makes you into the masters of *heaven*. You still forget such a Father. The Father comes and *adopts* you children. Many children are *adopted* by the Marwari caste. They become very happy because they have gone into the laps of wealthy ones. Children of the wealthy would never be adopted by the poor. You are the children of Prajapita Brahma. Therefore, you would definitely be mouth-born creations. You Brahmins are mouth-born creations. Those creations are born through poison. You understand the difference in this. Only when you explain to them can they become mouth-born creations. This is an *adoption*. A husband considers his wife to belong to him. Is the wife created through poison or through the mouth? The wife is a mouth-born creation. Then, when they have children, those creations are born through poison. The Father says: All of you are mouth-born creations. When it is said "You are Mine", you belong to Me. When it is said: "These are My children", the intoxication rises. Therefore, all of you are mouth-born creations. Souls are not mouthborn creations. Souls are eternal and imperishable. You know how the human world is *transferred*. You children have received many *points*. Nevertheless, Baba says: Even if you are unable to imbibe anything or speak about anything, simply remember the Father and you will be able to claim a status higher than those who give lectures. Sometimes, even those who give lectures fall due to storms. However, if they didn't fall and simply continued to remember the Father, they could claim a high status. Those who indulge in the vices the most break all their bones, because that is like falling from the fifth floor. Body consciousness is the fifth floor, lust is the fourth floor, and so on... The Father says: Lust is the greatest enemy. Some children write: "Baba, I have fallen." For anger, it isn't said

that they have fallen. When someone dirties his face, he hurts himself badly. He is unable to tell others that lust is the greatest enemy. Baba repeatedly says: Be very cautious about criminal eyes. In the golden age, there is no question of being stripped. There are no criminal eyes. The eyes become civil. That is a civilian (civilised) kingdom. At this time, the world is criminal. You souls have now received civil eyes, which continue to work for 21 births. No one becomes criminal there. The Father explains the main thing: Remember the Father and the cycle of 84 births. It is a wonder how the one who becomes Shri Narayan then becomes the Lucky Chariot at the end. The Father enters him. Therefore, he becomes very lucky. Let the history of 84 births of how Brahma becomes Vishnu and how Vishnu becomes Brahma remain in your intellects. Achcha.

To you sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to you spiritual children.

Essence for dharna:

1. Refine your intellect by having remembrance of the Father. Keep your intellect constantly full of this knowledge. Constantly remember the Father and the home and also remind others to do this.

2. Finish your criminal eyes in this last birth and make them civil. Be very cautious about criminal eyes.

Blessing: May you constantly be a destroyer of obstacles and an embodiment of solutions by having the stage of a bestower with the power of accommodation.

You receive the blessing of being a destroyer of obstacles and an embodiment of solutions on the basis of two things: 1)

Constantly being aware that you are a child of the Bestower and that you have to give to everyone. It is not that you will be loving when you receive *regard* or love. You have to give.

2) Become an ocean of the power of accommodation for yourself and for everyone who has a connection or relationship with you. By having these two specialities, you will be filled with good wishes and pure feelings and become an embodiment of solutions.

Slogan: Make truth your companion and your boat will never sink.

Avyakt Signal: Experiment on yourself and others with your mind with the powers of yoga.

When you have the natural practice of giving good wishes and auspicious blessings with your mind, your mind will remain busy and it will automatically step away from any upheaval that takes place within it. You will then never become disheartened with your efforts as you sometimes do now. There will be magic.
